

How to account for the Increase in the standard rate of VAT - Standard VAT scheme

From 1 January 2010, the standard rate of VAT will increase from 15% to 17.5%. Follows are instructions on how to amend Sage Accounts to reflect these changes using the **Standard VAT Scheme only** - please contact me if you are on Cash Accounting as the processes are different.

Note: The following are not affected by the change in VAT rate:

- Zero-rated goods, for example, basic foodstuffs, children's clothing and children's footwear.
- Goods and services subject to VAT at the reduced rate of 5%.

To change the VAT rate in Sage Accounts

Note: You should make this change on 1 January 2010

1. Open the Settings menu, choose Configuration then click the Tax Codes tab.

Sage Accounts v9 and below - Open the Settings menu then choose Tax Codes.

The tax code information appears.

2. Select T1 then click Edit.

Note: If you use a different tax code for your standard rate of VAT, select the relevant tax code then click Edit.

The Edit Tax Code window appears.

3. Enter 17.5 in the Rate box then click OK.

The Edit Tax Codes window closes.

4. To apply the change, and return to the Sage Accounts desktop, click Apply then click Close.

Tip: If you are prompted to save your changes, click No.

Sage Instant Accounts v14 - Click Save then click Close.

You have successfully changed the standard rate of VAT.

Sage Accounts applies the new rate of VAT to any new transactions that use this tax code. All existing transactions remain unchanged at the old rate of VAT.

To edit existing invoices and orders

Note: The steps below refer to invoices only. You should use the same process to amend any relevant sales orders, purchase orders, credit notes or quotes. You should also amend any recurring invoices or orders.

1. Open the Customers module then from the Links pane click Invoice List.

The Invoicing window appears.

2. Double-click the required invoice.

The invoice appears displaying the relevant items.

3. Click in the Description column of the first item that uses the standard rate of VAT then press F3 on your keyboard.

Tip: For service invoices, click in the Details column then press F3.

4. The Edit Item Line window appears.
5. From the Tax Code drop-down list, choose the standard rate tax code.

Note: Although the correct tax code already appears in this box, to recalculate the VAT amount you must select the tax code again.

The VAT amount recalculates using the new rate of VAT.

6. To close the Edit Item Line window, click OK.
7. Repeat steps 3 - 5 for any other standard rated items on the invoice.
8. To save your changes and return to the Invoicing window, click Save then click Close.

You have successfully updated the VAT amounts on the invoice. If required, repeat the process for any other invoices that need to be updated.

To credit an invoice at the old VAT rate

Note: To determine the correct VAT rate for a particular credit note, please contact HMRC. If you need to apply the VAT rate of 15%, you need to create a new tax code.

1. Open the Settings menu, choose Configuration then click the Tax Codes tab.

The tax code information appears.

2. Select the first tax code that is not in use then click Edit.

The Edit Tax Code window appears.

3. Complete the Edit Tax Code window as follows then click OK.

Rate	Enter 15 in this box.
Include in VAT return	Select this check box.
Reverse Charge	Do not select this check box.
EC Code	Do not select this check box.
Description	Old standard VAT rate.

4. The Edit Tax Codes window closes.
5. To apply the change, and return to the Sage Accounts desktop, click Apply then click Close.

Tip: If you are prompted to save your changes, click No.

Sage Instant Accounts v14 - Click Save then click Close.

You have successfully created a new tax code for the old standard rate of VAT.
